

Usage Reporting Quick Reference

Usage Reporting Access

Open a web browser and go to <https://usagereport.arm.com/login>
 If you have problems logging, please email PDG-DS-Licensing@arm.com

For best user experience please use either **Google Chrome** or **Mozilla Fox**

Product Certification and Usage Reporting Deadline

January 31	(Q4 report)
April 30	(Q1 report)
July 31	(Q2 report)
October 31	(Q3 report)

To avoid being suspended, submit certification and Usage Report in time

Product Certification

- Will not be able to submit without required fields
- Product Certification only required for tape outs
- IP confirmation and Artiscan are at DesignStart team's request
- If product taped out from MPW to Full Mask, a revision needs to be created and both MPW and Full Mask need to be certified

Required Fields

Product Name
Product Status
Foundry
Foundry Part #
Tape Out Date
ARM IP

Usage Reporting

- Will only show product that has foundry part #
- Make sure to include wafer quantity and proposed product status change for the reporting quarter
- Select "Nothing to report" if all products in evaluation or in design, OR if products in tape out but purchased no wafer

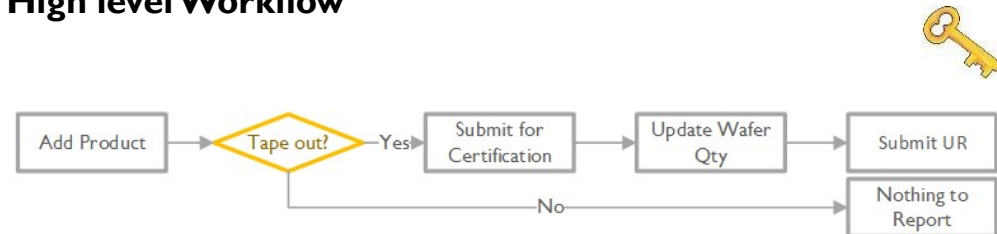

Product Status

In Design - Back end views of ARM IP have been downloaded and either eval work or chip design work have begun, but no tape out yet
 MPW - MPW/Shuttle Run tape out
 In Production - Multi-Layer-Mask or full mask tape out in either prototype or production
 End of Life - Tape out products terminated or reached end of life
 Cancelled - In Design products canceled, not reaching to tape out, or no longer exist

High level Workflow

Fast Track Workflow

New Tape out: Add Product > Fill out all the information > Save > Certify > Submit > Go to Home > Submit Usage Report > Update Product Status and Wafer Qty > Submit. You are done! 😊

Existing Tape out in MPW: Go to Existing Product list > Create Revision > Update Product Name, Status, Foundry Part #, Tape out Date > Save > Certify > Submit > Go to Home > Submit Usage Report > Update Product Status and Wafer Qty > Submit. You are done! 😊

Existing Tape out in Full Mask: Home Page > Submit Usage Report > Update Wafer Qty > Submit. You are done! 😊

No Tape out: Home Page > Submit Usage Report > Nothing to Report. You are done! 😊
